Presenting preliminary results of BSB963 “Protect-Streams-4-Sea” Project

George Zaimes, the Project Coordinator of the “Protect-Streams-4-Sea” project presented preliminary results at the 7th International Conference on Water Resource and Environment (WRE 2021) from November 1-4, 2021. The conference was in a hybrid mode (Online and Offline) with the online mode via MS TEAMS only (virtual conference without any physical participation).

The oral presentation showcased briefly the results of the “Protecting streams for a clean Black Sea by reducing sediment and litter pollution with joint innovative monitoring and control tools and nature-based practices” to scientists worldwide. The authors were from all partners; specifically, Zaimes G., Koutalakis P., Gkiatas G., Iakovoglou V., Marinescu M., Ristea O., Ghuljanyan A., Gevorgyan L., Kuharuk E., Trombitsky I., Tufekcioglu M., Yavuz M., Tufekcioglu A.

The Title of the presentation was “WRE4529: Identifying, monitoring and mitigating inland sediment pollutants to improve the Black Sea”. The [resentation can be seen in the following link <http://www.academicconf.com/video?confname=wre2021>. The WRE conference highlighted the needs to maintain the sustainability of indispensable water resources under increasing uncertainty and to protect the fragile water environments under the growing concern of intensive use of water we are facing today. In this conference there were more than 100 presentations with participant from all continents.

“This presentation has been produced with the financial assistance of the European Union. The contents of this publication are the sole responsibility of the Project Coordinator George N. Zaimes and can in no way be taken to reflect the views of the European Union.”

Common borders. Common solutions.
