## DISSEMINATION

**03-06-2022**

**Activity 20**

### Presenting results of BSB963 “Protect-Streams-4-Sea” Project

Georgios Gkiatas, Researcher from IHU presented results of the “Protect-Streams-4-Sea” project at the 15<sup>th</sup> Panhellenic Conference organized by Hellenic Hydrotechnical Union on 2<sup>nd</sup>-3<sup>rd</sup> June 2022, Thessaloniki, Greece. At the conference there were 120 papers and more than 150 participants.

The oral presentation highlighted the results of the “Protecting streams for a clean Black Sea by reducing sediment and litter pollution with joint innovative monitoring and control tools and nature-based practices” to hydrologists and water resources experts from Greece. The authors of the presentation were: Paschalis Koutalakis, Georgios Gkiatas, Iordanis Kasapidis, Valasia Iakovoglou, Georgios Pagonis & George N. Zaimes. The title of the presentation was “VULNERABILITY OF KALLIFYTO TORRENT ON FLOODS AND BANK EROSION WITH TRADITIONAL AND MODERN METHODS.” In addition, a paper of the presentation was published in the proceedings of the conference.

“This presentation has been produced with the financial assistance of the European Union. The contents of this publication are the sole responsibility of authors and can in no way be taken to reflect the views of the European Union.”

Common borders. Common solutions.
