AWARENESS EVENT

16.06.2021

EVENT 1 ROMANIA

Awareness event “Protect-Streams-4-Sea” Project

On March 22, 2021, on the occasion of World Water Day, Buzau-Ialomita Water Administration launched a contest called "We don't care" in which 9 teams from the 3 educational units that are part of the target groups entered. The participating teams prepared useful objects (pencil holder, vases, flower pots, jewelry, etc.) by reusing plastic objects (packaging).

The aim of this competition was to raise awareness of the fact that single-use plastic objects can be transformed into multi-purpose objects.

On 16.06.2021 within the activity "Water and our dependence on PLASTIC) took place the awarding of the winners of the contest.

The award ceremony was followed by a short presentation when the pupils found out about the pollution with plastic waste (presented by Oana Ristea, assistant of the project manager) the harmful effects of plastic for aquatic organisms but also for HUMAN.

The second part of the action was dedicated to the Siriu reservoir. Thus, the pupils learned the history of the construction of the Siriu reservoir and its uses from Laura Zaharia (director of SGA Buzau).

The activity ended with a visit to the canopy and the dam gallery.
