Event 3

Integrated Watershed Management for Flood and Torrential Events

The project manager from Artvin Çoruh University of “Protect Streams-4-Sea” Mustafa TUFEKÇIOĞLU presented at the national congress “IV. Ulusal Karadeniz Ormancılık Kongresi (KAROK2021)” held in December 6-9th, 2021. The congress was organized online by the Karadeniz Technical University Faculty of Forestry. His work provided an overview on the Integrated Watershed Management in the context of flood and torrent events. In this sense, he analyzed the Arhavi flood in which one person died. The presentation attracted great interest by the audience.

“This presentation has been produced with the financial assistance of the European Union. The contents of this publication are the sole responsibility of the Mustafa Tufekcioglu and can in no way be taken to reflect the views of the European Union.”

Common borders. Common solutions.
