Landslides in Arhavi Watershed

Mustafa TUFEKCIOGLU, the project manager of Artvin Coruh University of the “Protect-Streams-4-Sea” project, presented a at the national symposium “AFAD Heyelan Sempozyumu” that was held online October 13-14th, 2021. The symposium was organized by the Turkish Ministry of Interior Disaster and Emergency Management Presidency (AFAD).

The oral presentation showed the potential impacts of different land uses on landslides by providing preliminary findings and drone photos from the BSB963 project’s Turkish pilot area, Arhavi Watershed.

“This presentation has been produced with the financial assistance of the European Union. The contents of this publication are the sole responsibility of the Mustafa Tufekcioglu and can in no way be taken to reflect the views of the European Union.”

Common borders. Common solutions.
