AWARENESS EVENT

06-10-2022

EVENT 5 GREECE

Awareness event “Protect-Streams-4-Sea” Project

George Zaimes, Paschalis Koutalakis, Georgios Gkiatas, Georgios Pagonis, Iordanis Kasapidis, Konstantinos Krikopoulos and Theodoros Klepousniotis showcased to university students the methodologies that were implemented in the BSB963 “Protect-Streams-4-Sea” project on October 6th, 2022 that was held in Drama, Greece.

Specifically, they presented the use of the streamflow meter, informed them about the soil sampling methods and how to evaluate the different types of the soil erosion and the importance of use new technologies like drones, submarine drones and sonar that enhance the ability to estimate erosion and pollution in streams.

More than 40 students participated in the awareness event, that showed great interest in the project since they got ideas for future thesis proposals but also were interested in participating in the project as volunteers.
